Ms. Mahoney, Tobacco Coordinator advised the Board that on December 16th 2021, during a visit, the sales clerk had 5% nicotine vape products available for sale. 5% nicotine strengths are only supposed to be available in 21+ vape and smoke shops, the highest strength that this location is allowed to sell is 3% nicotine strength. The owner of Sunoco Mr. Jimmy Abboud was present during the zoom meeting, he stated that the sales clerk made a mistake and that the sales representative whom they obtain their tobacco products through had left them with samples, in which there were varying strengths of 3% and 5% products. The Sale of a 5% strength product is a violation of the Town of Hanover Tobacco Regulations. Mr. Abboud stated that he would provide the paperwork and letters from the retailers to Ms. Mahoney and the Board of Health outlining the products which were delivered to Sunoco. This subject will be continued at the next meeting.
