Information Technology Study Committee
Meeting Minutes
Hanover High School
October 12, 2017
4:00 p.m.
Small Conference Room

Present: Brian Ciccolo; Bill Hartigan; Patrick O'Brien; Thomas Raab, Don White

The committee introduced themselves and gave a brief background for each member. The Selectmen still have one slot available. To date it hasn't been filled. The committee reviewed the technology budget and Bill reviewed the current inventory of technology townwide.

We discussed the current list of servers and their purposes. At our next meeting, Bill will provide a detailed list with each server and what they currently do. He will also detail their age and capacity. He will also show metrics for each and utilization.

The committee briefly discussed the possible transition to fiber.

The committee agreed that they wanted to take a look at our server capacity and possibly make a recommendation for a server Annual Town Meeting article. Bill will bring metrics to the next meeting including utilization, disc space, capacity and age.

Meeting adjourned at 5:30 p.m.
