## **SEASONAL INFLUENZA CLINICS**

### Public Flu Clinics

The Hanover Board of Health in conjunction with the Hanover Visiting Nurse Association has scheduled our annual public flu clinics to be held at the **Hanover Senior Center**, 665 Center Street, Hanover:

Tuesday, October 7, 2014	1:00 pm – 3:00 pm
Wednesday, October 8, 2014	4:30 pm – 7:00 pm

Please note:

Because of budget cuts across all departments, the Massachusetts Department of Public Health is no longer able to provide free vaccine to cities and towns except to those residents who are either un-insured or under-insured (meaning their health plan will not cover the cost of a flu shot).

The Board of Health has purchased an adequate supply of flu vaccine to make up for the lesser amount received from the State. \*\*\* All persons will be asked to present an insurance card (most insurance plans welcome) and the insurance plan will cover the cost of the flu shot \*\*\*.

No one will be turned away on the basis of insurance eligibility.

Please remember to wear short sleeves.

If you require additional information please call the Hanover Health Office at (781) 826-4611.
