

## Massachusetts Tick-Borne Diseases by County

## You Could Know Someone With a Tick Borne Disease

The Hanover Visiting Nurses Association is pleased to be able to present a discussion on Lyme disease.

**WHEN: Tuesday, April 9, 2019**

**WHERE: Hanover Town Hall, 1st Floor Meeting Room**

**TIME: 6:30 PM**

We will have Elena Monarch, Ph.D., Sean Foss, ND, LAC and Clair Haddad, Health Coach from Lyme & PANS Treatment Center in Cohasset as our panelists to share how Lyme disease presents itself with many symptoms. We will learn more about Lyme disease, PANS (Pediatric Acute-Onset Neuropsychiatric syndrome) and PANDAS (Pediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal Infections). which you may have never have heard of before!

It is increasingly clear that many children and adults in New England suffer from tick-borne illnesses such as Lyme disease. It is important to understand that Lyme disease is just one of the tick borne illnesses. There is confusion about the signs, symptoms, and treatment protocols for these disorders. When left untreated, bacteria, such as Lyme and certain strains of strep, can produce unexpected neuropsychiatric symptoms.

Learn more about it on, Tuesday, April 9th. Talk to your friends about attending, too!
