

## **Hanover Open Space Committee 2022**

March 7, 2022

Attendees: Hall Thomas, Mary Dunn, Bob Meader, Joe Grecco, and John Ferraro

Guests: Brian May (virtual)

Meeting was held at the Hanover Town Hall and opened at 7:02 PM

Agenda:

Meeting notes approved from February 7, 2022

Trail Maintenance:

French's Stream – concerns that trail blazing needs to be updated. Committee agreed to set up schedule to visit trail and update green & red blazing. Committee will also address spur trail off Colby Philips that leads to Rockland Rail Trail with new red blazing. Will set schedule during April OSC meeting

Chapman's Landing & Iron Mine Brook Trails – new bog bridges will need to be reset in areas due to high water. Explore options to link long run of bridges together to keep them in place.

Mary Dunn will be reaching out to Wildlands Trust to obtain additional photo of facilities or structures built by Lucas Nichols of Long Pond Custom Builders.

Conservation Restriction Update: Little to no progress. Suggestion is to request a meeting with all parties required to determine next steps and timeframe to complete the outstanding CRs.

Rail Trail Update: Hanover is ready to start the project. Meeting on March 8, 2022, to walk the path prior to starting project.

Next meeting April 4, 2022 at 7:00 PM, Hanover Town Hall

Meeting adjourned at 7:57 PM.
