 1. We are still in the preliminary stages of project planning. We are trying to coordinate a Road Safety Audit (RSA) for the project later this month, which will include the Town, police, fire, OCPC, MassDOT HQ, and MassDOT District 5 staff. It will likely be held at Town Hall and include a site visit to discuss existing safety issues and potential countermeasures.
 2. We are also in progress on Intersection Control Evaluation (ICE) per MassDOT guidelines. We have completed Stage 1 and are moving towards Stage 2, which will include conceptual design of the corridor and the intersections. As was always envisioned we would include the Town and the committee for input on those designs when we are in the development process.
