LeeAnn L. Allen, Clerk		

The rule for award is the contract is awarded based on the lowest price defined by the adjustment price plus two times the linear foot.

Tasco Construction, Inc = $320 + (2 \times 300) = \$920$

P.G Construction Inc = $690 + (2 \times 100) = \$890$

Contract awarded to P.G. Construction, Inc.
